Service Level Measures

Service Level Measures may be thought of as efficiency measures. A measure of the resources required to produce a certain outcome; these may or may not be associated with a goal or target.

Development Review - Average Number of Calendar Days to Completion Target: Less than 28

The Planning Division's goal is to completely review a customer's land use application in less than 28 days. In November and October, no land use applications were reviewed by the Planning Division.

Notes: Data collection for this measure began in January 2011.

Most projects have been amendments and technical amendments because they take two weeks to process. Outside referrals have a 21 day turnaround.

Notes: Monthly variations are due to developer submittals and not controlled by the Current Planning.

A pre-submittal meeting gives an applicant the opportunity to present a conceptual plan to the Planning Division. Staff provides general comments on the feasibility of the plan, the processes and fees required to process and review the plan, and a list of referrals.
